One Sentence Story

Build a story one sentence at a time with your friends!

1. Each person chooses a color they want to write in.

Person A writes in RED

Person B writes in BLUE

Person C writes in GREEN

2. One person writes the first sentence and everyone adds their next sentence. It doesn't have to be a long sentence - short is totally fine!

3. If you're not sure where to start, try [generating a story starter sentence](#). Or use "Once upon a time there was a..." and go from there!

Example:

Once upon a time there was a koala who loved to sing from the eucalyptus tree tops. She decided to start a choir with all of her friends, but the other koalas did not want to sing with her. "Koalas don't sing!" they all said. But then a flock of birds landed on the branches around the koala and said, "we will sing with you!" The koala smiled and agreed! The next morning, the koala sang with the birds during the dawn chorus, and was happier than she had ever been.
